INVESTING IN SNOHOMISH.

A homegrown company committed to creating a vibrant place for people to live and work.

We're local. Snohomish County is not only where our company has been anchored for over 50 years, it is our home. Supporting and improving the community is our priority. Our commitment runs from animating the sidewalk experience with colorful flowers and public art, to viewing our properties through the lens of long-term investment, measuring returns in decades, not years. This perspective frees us to choose quality over a quick fix, to do it right the first time, and to value relationships over short-term success.
